

Energy Sector Working Group
Meeting #2
October 5, 2022
YVEA Conference Room, 2211 Elk Road

1. Call to order and Roll Call
2. Welcome and Introductions
 - a. Ashley Dean - YVSC
 - b. Dan LeBlanc
3. Follow up on Working Group requests from previous meeting (10 min) ●

Group request for Lotus carbon impact modeling

Review these documents prior to meeting

Final Routt GHG Report [here](#)

Final Updated 2018 Routt County Inventory Management Plan [here](#)

Final Routt County 2018 GHG Inventory workbook [here](#)

Discussion – Is a discussion with Lotus still needed? If so, what specific questions need to be addressed?

- **Question from prior meeting – How far beyond local/County level should group focus?**

CAP Board direction: Focus on local items that the CAP Board can impact but bring important State and National items to the CAP board as needed. Focus is local action not lobbying State/Federal government.

Further Discussion?

- **Request to add a builder representative to the working group**

Board approved this request.

Suggestions from group

4. Discuss and document existing initiatives according to Energy CAP Strategies and Actions

(75 min)

- a. Identify existing policies, programs, and initiatives that contribute to outcomes (Build off tactics identified in CAP).
- b. Identify additional outreach, if needed, to document existing initiatives from stakeholders not represented on the Working Group

5. Next meeting and proposed agenda:

First Wednesday of the Month is November 2nd – Same time (1:30)?
